

SANITARY MEASURES

Protecting our exhibitors, partners, visitors and employees' health is our top priority. Therefore we will implement a series of hygiene measures that will help you participate in our event serenely.

Wearing a mask compulsory

Every participant – exhibitor, speaker, visitor, partner, and contractor – is required to wear a face mask.

Hydroalcoholic gel

Sanitiser dispensers will be available in different locations of the venue (reception area, conference rooms, organisation office etc.).

Flow management

On-site crowd control with a separate entrance. Compliance with the maximum number of persons authorised at a given point in time

e-badge

Download your badge on your smartphone. Communications actions will encourage visitors to pre-register in order to reduce on-site registrations and sending of e-badges.

Signage

throughout Pavilion A will remind of essential health precautions

Regular disinfection

Crossing points will be regularly disinfected by staff in charge of cleaning common areas, reception desks, escalators, chairs in the conference rooms etc.

Two 'Covid 19' managers have been appointed:

- 1 Viparis manager
- 1 IBS manager

We are looking forward to see you again and meet you on 20th and 21th October 2021

IN COMPLETE SAFETY

These hygiene measures will be updated based on governmental decisions and the evolution of the situation
